

The map illustrates the proposed boundary between Võru and Põlva counties in Estonia. The boundary is marked with a thick red line. Key settlements shown include Emmu, Kurese, Kibura, and Järve. The map also displays various geographical features, including lakes (e.g., Kõrvala järv, Kõrvala soe) and rivers (e.g., Võru jõgi, Põlva jõgi). The boundary follows the Võru jõgi in the north and the Põlva jõgi in the south, with several smaller adjustments around individual settlements and smaller water bodies.
